Dear Sir,

Referring to your email dated 15th July and addressed to Ministry of Transport we would like to inform you about the following.

Our ministerial decree no. 261/2011 and most specifically its Art 34 under paragraph (5) states the following:

When using a hired goods transport vehicle (including trailer) for transportation of goods for hire, reward or own account the driver shall dispose aboard the vehicle the rental contract or certified copy of this contract, which contains the name of name of hiring and renting company, signature date and validity period of the contract as well as the identification data of the vehicle (including trailer).

This above regulation is applicable on the Hungarian territory to all involved parties in international transport (including transit traffic), which means that the driver has to abide by this law. The provision is in our law in order to make it possible for the inspector to ascertain about the legal use of the vehicle (in this case trailer) in question.

Therefore we would like kindly ask you to accept the above justification and to inform the Latvian undertakings, hauliers as to prevent similar problems in the future.

Budapest, „17” July 2015

Best Regards,

  
Mikulás Rébert  
head of department
